PERSONAL PROJECTS

Weather Forecast App ⬈
- A weather app using React JS, Tailwind CSS, Luxon, & React-Toastify.
- Features are detailed hourly forecast with local time for current & searched locations with dynamic backgrounds.

Play Media : A YouTube Clone ⬈
- A modern responsive React JS YouTube clone with Material UI 5.
- App features include in-app video playback, channel pages, custom categories, a videos page, related videos, and search functionality.

COVID-19 Tracker ⬈
- Realtime Web Application built using React JS and real-time API.
- This Application displays the number of active cases, recovered cases, and deaths for the selected country by the user.

CARE PLUS : A FITNESS APP
- An Android App with voice assistant and pose detection using Java.
- Features of the application include a step counter, a BMI and BMR value calculator, and a simple diet and exercise schedule.
